Financial Strength Rating

Financially Strong – BriteCo’s policies are backed by Glencar Insurance Company, a subsidiary of the world’s third largest reinsurance company, Hannover Re. Our carrier’s financial strength rating is A+ Excellent by AM Best.

BriteCo gives you more coverage than the standard homeowners or standalone jewelry carrier. Our policies cover up to 125% of the insured value to repair or replace your lost or damaged jewelry. This means you’re never underinsured if there is a rapid change in the underlying precious metal or gemstone market prices.

BriteCo provides preventative maintenance coverage for stone tightening, bent prongs, broken prongs, worn prongs, broken earring posts, clasp replacement, and pearl restringing. Coverage that would be hard to find with a homeowners rider.

BriteCo keeps a close pulse on the market price of precious metals, diamonds, colored gemstones, pearls and more. Every year we update the insured value, gratis, to reflect the change in market value of the underlying components. Translation, you’ll always be covered for the exact amount of insurance you need.
